• Full Stack Developer •

ABOUT ME

Hard working individual with a diverse set of skills. Strong passion to find a company with a growth mindset that will allow a larger impact in application development, as well as the ability to mentor other developers down the road. Looking to join a dedicated team of software developers that strive for excellence. While attending Codeworks skills grew tremendously in Javascript, C# and full stack development. Over 500+ hours of study and training will make a great fit for a companies development needs.
